Applicants' arguments, filed 1/4/02, have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

The elected specie is now deemed to be within claims 1-5, 38, and 41-49.

Claims 1-5, 38, and 42-49 are rejected under 35 U.S.C. § 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Consideration of claim 41, as filed, revealed that the various groups that are listed as options for  $R^4$  therein serve as the written basis for  $R_1$  in instant claims 1, 49, and dependent claims. Within the options for  $R^4$  the second group contains the parameter "p" to define the number of methylenes therein. No definition for what value or values "p" can take on have been found as filed. Now in claims 1, 49, etc. this same group cites the number of methylenes as being 0 - 100. This evaluation of the "p" parameter is NEW MATTER as not having written basis as filed. This rejection is necessitated by amendment.

Claims 2-5, 38, and 42-48 are rejected under 35 U.S.C. § 112, fourth paragraph, as being of improper dependent form for failing to further limit the subject matter of a previous claim.

In claim 1 the method is directed to designing a polyamide which contains the endgroup  $R_1$  which is a nitrogen containing group which is attached to the end group which is  $X_{2m}$ . Claim 2 is outside the scope of claim 1 because it ends with  $X_{2m}$  and does not have a terminal endgroup  $R_1$ . Therefore claim 2 cannot further limit claim 1 due to being outside of the scope of claim 1. Claims dependent from claim 2 which do not add the endgroup  $R_1$  also are not further limiting from claim 1 from which they ultimately depend. This rejection is necessitated by amendment.

The disclosure is objected to because of the following informalities:

In the specification on page 16, the Table legend is improper in that the specification is required to only contain line spacings of 1 ½ to double spacing. See the MPEP at section 608.01 in the section entitled PAPER REQUIREMENTS.

Correction is required.

No claim is allowed.

Applicants' amendment necessitated the new grounds of rejection. Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P. § 706.07(a). Applicants are reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
